

How to change password?

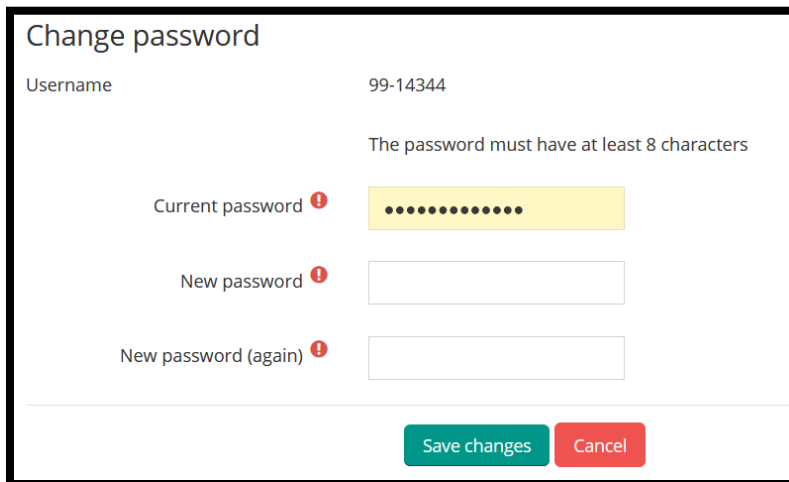

1. Open your e-Aral account. Click your name at the upper right corner of the page.

2. Click **Preferences**> **User Account**> **Change Password**

3. Input your **new password** twice and **save changes**

A screenshot of the "Change password" form. At the top, the title "Change password" is displayed. Below it, the "Username" is shown as "99-14344". A note states "The password must have at least 8 characters". There are three input fields: "Current password" (filled with dots), "New password", and "New password (again)". Each field has a red exclamation mark icon to its left. At the bottom right, there are two buttons: "Save changes" (green) and "Cancel" (red).

4. Password is now ready for use.
